POPERTY MANAGEMENT APPLICATION USING SALESFORCE

Project Report Template

1 INTRODUCTION

1.1 Overview

Property management is the daily oversight of residential, commercial, or industrial real estate by a third-party contractor. Generally, property managers take responsibility for day-to-day repairs and ongoing maintenance, security, and upkeep of properties. They usually work for the owners of investment properties such as apartment and condominium complexes, private home communities, shopping centers, and industrial parks.

1.2 Purpose

Property managers **assist owners in creating budgets, advertise rental properties, qualify tenants, and collect rent**. They also comply with the local landlord and real estate board laws and maintain the property.

2 PROBLEM DEFINITION AND DESIGN THIKING

Help for this Page
You can create new custom tabs to extend Salesforce functionality or to build new application functionality.
Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.
